The Financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (India GAAP). The company has prepared these financial statements to comply in all material aspects with the Accounting Standards specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rule 2014 as amended and the relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current and non-current as per the normal operating cycle of 12 months.

The statement of cash flows has been prepared under indirect method.

**3. Use of Estimates and judgments**

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. The estimates and underlying assumptions are reviewed on an ongoing basis.

**4. Current/ non-current classification**

All assets and liabilities are classified into current and non-current.
